

# FLORIDA UNITED WAYS CONSENSUS LEGISLATIVE AGENDA

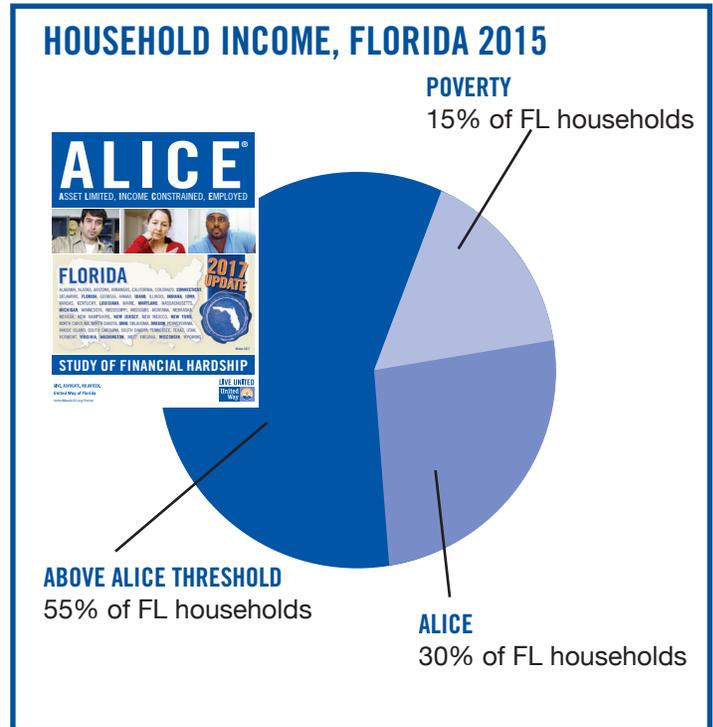

## ALICE: ASSET LIMITED, INCOME CONSTRAINED, EMPLOYED

Florida's United Ways have released an updated ALICE (Asset Limited, Income Constrained, Employed) Report documenting the ongoing financial hardship of low-income working families in Florida. It shows that 15 percent of Florida households still fall beneath the poverty line and an additional 30 percent experience severe financial strain, despite being active in the labor force.

ALICE households are often just one emergency away from falling into poverty.

United Way's policy agenda calls attention to the challenges ALICE families - our friends, neighbors, co-workers and family members - face in Florida.

Drawing from research in the ALICE Report and from the work of nonprofit, business, and government leaders, Florida's United Ways developed a consensus legislative agenda for the 2018 Florida Legislature to help working families and individuals who struggle to pay for their basic necessities.

### FINANCIAL STABILITY

**Earned Income Tax Credits Boost Family Income**  
but one in five don't claim them

## Policy recommendations

### FINANCIAL STABILITY

**INVEST** \$1.2 million in state funding to expand the capacity of tax preparation assistance programs statewide.

### EDUCATION

**SUPPORT** opportunities to improve access to quality early learning, accountability measures for School Readiness, Voluntary Prekindergarten and Kindergarten readiness, and family support services such as Help Me Grow.

### HEALTH

**ENSURE** that changes to our healthcare laws improve on existing healthcare coverage for Florida's families.

**SUPPORT** legislation to expand access to dental care for children.

**MAXIMIZE** funding for home and community-based services for older adults to reduce the cost burden for Florida families and taxpayers.
